

If You Believe

your heart has got way of telling you
it's never wrong about what you should do
If You Believe,

so let me lay it all out on the line
I know that your heart can feel like mine
If You Believe, like I believe

anything is possible tonight
so darling lay your doubts and fears aside
love's the only thing that gives us life
If You Believe, like I believe

I've never held your body quite this close
something about you makes me let go because I Believe
The magic doesn't have to end at dawn
a little faith in love will keep it strong
If You Believe, Like I believe

anything is possible tonight
so darling lay your doubts and fears aside
love's the only thing that gives us life
If You Believe, like I believe

Your heart has got a way of telling you
Im giving mine away baby you can too
If You Believe, Like I believe
